ABOUT ME

Enthusiastic Python Django Developer with practical project experience in web application development. Strong in Django, ORM, authentication, and frontend basics, with a continuous learning mindset.

EDUCATION

MBA, Human Resource Management – Alagappa University, Karaikudi (2024)

B.Sc, Computer Science – Kongu Arts and Science College, Erode (2017)

HSC – PKP Swamy Matric Hr. Sec. School, Erode (2014)

PROJECTS

Chase-Website-Static

GitHub Link: https://github.com/SPS199/website
- Created a static HTML website prototype with custom layouts and user interface components, demonstrating front-end web development fundamentals.

Urban T-shirt -Django Frame work

GitHub Link: https://github.com/SPS199/urban-django-website
Live demo: https://django-website-g9nh.onrender.com
- Developed an Urban T-Shirt e-commerce website using Django framework where users can browse products, add items to cart, and authenticate securely. Implemented Django MVT architecture, ORM, sessions, and admin panel for product management.
- Implemented user authentication (login/signup), session-based shopping cart, and admin panel for product management.
- Managed database operations using Django ORM (SQLite)

WORK EXPERIENCE

Marketing Intern – Consolidated Pvt. Ltd. (Apple Partner – iPlanet Stores), Coimbatore (Jul 2025 – Sep 2025)

- Supported the development and execution of digital and offline marketing campaigns.
- Executed regional campaigns across Tamil Nadu, Kerala, and Bangalore for iPlanet stores. Conducted competitor research and market analysis to identify trends and opportunities.

INTERNSHIP

Python Intern - AI Tech Academy, Coimbatore (Nov 2025 - Jan 2026)

- Gained practical experience in Python programming, object-oriented concepts, and file handling.
- Developed small projects and assignments to strengthen coding and problem-solving skills.
